

HORNSBY HOUSE SCHOOL

NUT-FREE POLICY

The Brookwood Partnership at Hornsby House School operates a Nut-Free Policy.

It will never knowingly use products that contain nuts.

It is clear, however that more and more products are now containing the warning:

'This product may contain traces of nuts.'

It has been agreed that Brookwood can continue to use these products with the proviso that nuts are not contained in the ingredients lists. Brookwood will not use products which carry the warning:

'Produced on a conveyor belt which handles nuts.'

Food Brought into School from Home

Some pupils suffer severe allergic reactions to nuts.

For the safety and wellbeing of all the children, when providing food for school trips, snacks for after-school clubs, birthday treats, etc., please ensure you avoid any products which contain nuts.
